SECURITY AND SAFETY

Security

For your own safety and peace of mind, the hotel has a 24-hour security coverage including security patrols in all the guest areas supported by video cameras for thorough and professional security coverage.

Valuables:

Cash, jewellery, and other items of value should not be left unattended in your room. Safety deposit boxes are available for your own use free of charge, in your room. The Management regrets that it cannot accept responsibility or be liable for any lost valuables left in your bedroom.

LOST AND FOUND PROPERTY ☎ 7003

Please contact the Housekeeping Department for any lost items.

YOUR PROTECTION AND PRIVACY ☎ 7001

When answering the door, please identify your visitor before opening the door. All doors are equipped with a viewing lens for your safety. If you have further queries please call the Front Desk for assistance. Ensure that your door is closed when you leave your room. Lock your car whenever you self-park and do not leave valuables in your vehicle. Although the style of lock may vary from hotel to hotel, most lock-types are fitted with an additional security bolt. This bolt can be activated from inside your room. It is recommended that you use this feature whenever you are in your room, especially upon retiring for the night.

Fire Safety

You are advised to study the Emergency Fire Evacuation Notice on the wall next to your bedroom's entrance door. The Elysium is fully equipped with smoke detectors in all guest bedrooms, and is fitted with a highly sophisticated alarm system that will sound in the rare event of a fire. Upon hearing the alarm, remain calm and leave your room, using the nearest exit. Please remember that there is no need to panic. If you encounter smoke at lower levels, turn around and use another exit. If you notice a fire in your bedroom or elsewhere in the hotel, sound the alarm by breaking the glass on the nearest fire alarm point. Never use the lifts during a fire.

Fire Precautions

- ♦ On your floor, fire exits are clearly marked. Please take the time to note the following points, as heavy smoke may prevent you from locating these fire exits:
- ♦ Count the number of doorways between your door and at least two emergency exits
- ♦ Check the location of fire extinguishers/hoses and alarms in the corridor of your floor
- ♦ Understand the air-conditioning controls in your room (ON/OFF SWITCHES)

If a fire starts in your room

- ♦ Close the air-conditioning unit
- ♦ Evacuate your room immediately
- ♦ Close the door securely behind you
- ♦ Activate a fire alarm and notify your immediate neighbours
- ♦ Call the hotel telephone operator from the nearest phone

If evacuating upon hearing fire alarm: (continuous sound)

- ♦ Move cautiously
- ♦ Feel the door and handle with the palm of your hand
- ♦ If the door or handle is hot or abnormally warm, do not open it
- ♦ If the door is not hot, open it carefully, but be ready to close it immediately if necessary
- ♦ Proceed to the nearest emergency exit
- ♦ Do not use the elevator
- ♦ If one exit is blocked, use another exit in the opposite direction. Stay calm and always hold the handrail in fire exits

You can help prevent fire by:

- ♦ Not smoking in bed
- ♦ Not throwing cigarette butts or matches in the wastepaper baskets
- ♦ Not using electrical or heating devices in your room, or making sure they are switched off when you have finished using them

If there is smoke in the corridor, the room can offer protection, therefore:

- ♦ Stay in the room
- ♦ Shut and seal the door with wet towels
- ♦ Go to the balcony and try to attract attention
- ♦ Remain calm until the rescue services arrive
- ♦ If your companion is blind, deaf or disabled in such a manner that you would require assistance in an emergency, please notify any member of the Reception staff immediately upon arrival to the hotel.

If you must remain in your room:

Don't panic. The rooms offer protection during a case of fire. Please take note of the following things that

you can do while waiting for rescue.

- ♦ Turn off the air-conditioning
- ♦ Fill the bathtub with water (as a water reserve only)
- ♦ Phone the hotel telephone operator to inform of your location
- ♦ Stuff wet towels and sheets around door seals and air vents
- ♦ Use the wastepaper basket to bail water from the bathtub if smoke seeps in
- ♦ Remove drapes from the window
- ♦ If smoke still enters your room, make a tent over head with a wet blanket
- ♦ As a last resort, if the air becomes too smoke-laden, it may be necessary to slightly open your window. If the windows do not open, break one with a chair or drawer. Do not open or break a window if smoke or flames are rising outside from a lower floor.

Remember:

Most casualties occur from inhalation of smoke and poisonous gasses, not from burning. Always stay low on the ground if there is any smoke around you.
